## IMAGE FESTIVAL # 4 TOGETHER

### 2014 EDITORIAL THEME

TOGETHER, we can bring life. Every living entity is made of cells that, united, can change, evolve and lead to existence. TOGETHER bears a dynamic, the very foundation of any society, the gripping complexity of "le vivre ensemble": we meet to act, to combine efforts, forces and skills in order to share emotions, knowledge and thoughts. Organizations are edified together, whether it be family, society, economics, culture, politics, religion, whether it be a Nation or a simple friendship. Being TOGETHER can be demanding as it implies accepting diversity and differences, it is a meeting point. Together implies responsibility as we are, de facto, the actors of past and future History.

From the 1<sup>st</sup> to the 31<sup>st</sup> of March 2014, around 50 photographers will show their perception and interpretation of the word TOGETHER.

The Festival is organized by the Institut français in Jordan in collaboration with Darat Al Tasweer and partners.

20 venues, 50 artists, workshops, publications, 2 competitions, special guests and The Night of the Year by Les Rencontres d'Arles on March 28! Enjoy the Festival!

## IMAGE FESTIVAL CONFERENCES & WORKSHOPS

ARCHEOLOGICAL PHOTOGRAPHY by Orestis Kourakis  
Sunday 2 March @ 6:30pm / Institut Français in Jordan

In the framework of his photo exhibition entitled "Macedonian Decapolis of Jordan", Orestis Kourakis will curate a lecture on archaeological photography. This highly specialized discipline - at the intersection of art and science - requires cutting edge technology to help preserve a cultural record of the past in an ever-increasing globalized world. Kourakis will demonstrate how innovations in the technology of photography provide an accurate and aesthetically pleasing documentation of cultural heritage that serves the needs of the professional community and the general public equally. Orestis Kourakis is the official photographer of the Archeological Museum of Thessaloniki.

VOYAGES by Christian Caujolle  
13 March 2014 @ 6:30pm / Institut Français in Jordan  
Screening followed by a discussion in English

Since the 19<sup>th</sup> century, this is one of the great traditions in photographic practice. It became an art which functions and aesthetics have evolved and still continue to modify over time. Mixing the notions of exoticism, or colonialism; combining discovery, curiosity, adventure and intimate narrative, the so-called "travel photography" is nowadays more and more complex and rich. From the colorful narrative to the "inner journey", this conference will tackle how photography crosses and carries cravings for elsewhere, for travel, for landscape, for movement. Christian Caujolle is the founder of the Agence VU, an artistic curator and the author of numerous books on photography.

TOGETHER IN 6MOIS by Marie-Pierre SUBTIL  
Saturday 22 March 2014 @ 6:30pm / Institut Français in Jordan  
Screening followed by a discussion in English

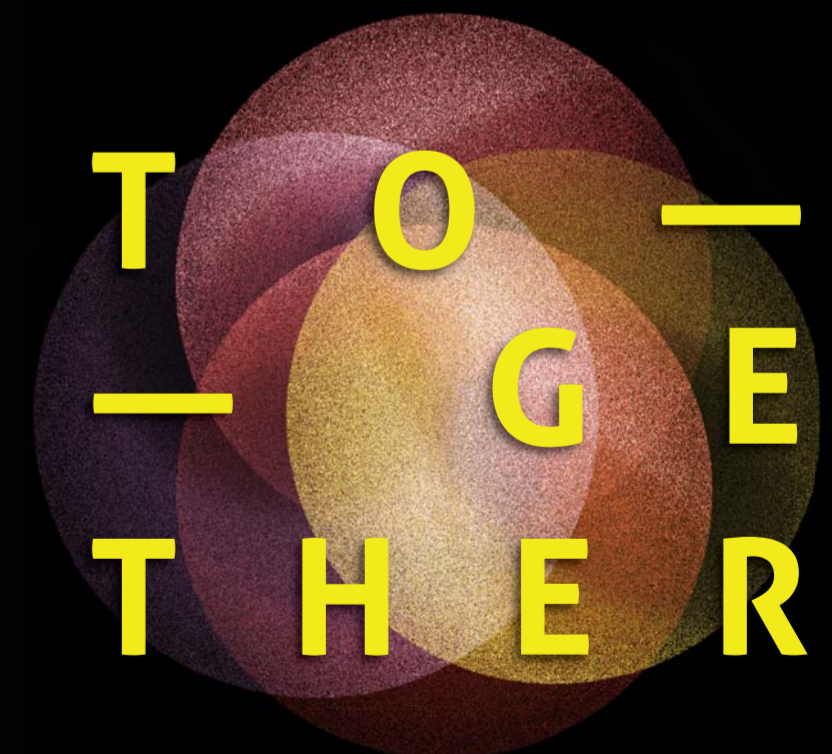

6Mois is a French magazine, created in Spring 2011, which publishes, twice a year, reports in images from all over the world. The editor in chief, Mrs Marie-Pierre Subtil, will explain the full project by screening extracts of the very latest magazine issue, the Spring 2014 issue.
